

Training: Tableau LOD

By Corporate Renaissance Group

Introduction

Tableau 9.0 introduced a new type of expression called Level of Details (LOD). LOD provides simple methods to compute aggregations that are not at a level of detail as the visualization. The introduction of LOD has provided a breakthrough in the area of calculations.

CRGroup offers an interactive, one-day training session for your Tableau developers to gain first-hand experience on how to deploy LOD to solve complex scenarios.

The training session may take place on premise or at a location of choice.

What you will learn

The LOD training program consists of the following agenda:

- Understanding the basics of LOD Expressions
- Types of LOD Expressions and their usage
- LOD Expressions and Aggregations
- Using Filters with LOD Expressions
- Hands-on practice labs

Duration

1 Day

Who should attend?

This course is designed to provide developers with the skills required to become a Tableau LOD expert. Professionals with advanced Tableau experience who have a deep understanding of Basic calculations and Table calculations will have an opportunity to extend their abilities.
